Mark Dykes is with the Florida Department of Agriculture and Consumer Services Apiary Inspection Section. As supervisor of Region 2, Mark’s primary responsibilities include overseeing the inspection of all registered bee hives in his district as well as helping to educate the public on good beekeeping practices. He is a graduate of the University of Florida with a degree in Natural Resource Conservation and veteran of the US Coast Guard.

Mario Jakob, of D&J Apiary, Inc. of Umatilla Florida, owns and operates a family commercial beekeeping operation in addition to a mobile beekeeping supply unit. Services provided include: wax rendering, honey extracting, beekeeping seminars, and pollination for large plots. D&J Apiary is a member of a Sue Bee honey co-op and in active cooperation with several local beekeeping associations.
