4:00-6:00. Soil Health in the Subtropics and Tropics

1. **Steve Woodruff,**  
   Agronomist, USDA,  
   Natural Resources Conservation Service (NRCS), Greensboro, NC

   Steve Woodruff is an agronomist with NRCS located at the East National Technology Service Center in Greensboro NC. Steve primarily assists NRCS in states within the east region of the US with ecological issues they face. Recently, his focus has been on soil health on both cropland and grazing lands. Steve received his BS in Agronomy from North Carolina State University in 1983.

2. **Stuart Weiss,**  
   Agronomy Leader and Acting Horticulture Leader,  
   University of the Virgin Islands St. Croix

   Stuart Weiss is the Agronomy and acting Horticulture Program Leader at the Agricultural Experiment Station of the University of the Virgin Islands. He has specialized in tropical agriculture working with various inter-related disciplines such as agroecology, forage agronomy, improved pasture grazing systems, small ruminant livestock production, cover crop management, and soil health. Stuart Weiss has degrees in animal science, agronomy, and is a PhD candidate in Horticulture at the University of Florida.
