Quantifying Ecosystem Service Benefits of Conservation Programs

WATER QUALITY
- Sediment Retention
- Chemical Remediation
- Nutrient Regulation

CLIMATE
- Carbon Sequestration
- Greenhouse Gas Regulation

WATER SUPPLY
- Aquifer Recharge
- Flood Control
- Drinking Water

BIODIVERSITY
- Fish and Wildlife
- Pollinators
- Native Plants

December 14, 1:30 – 3:15
ACES & Ecosystem Markets 2012
2010 Total Conservation Reserve Program (CRP) Rents: $1,736,504,541

Multiply this by 26 years and you get a really big number
