Short Course Overview:

- 400+ attendees
- 50+ speakers
- Maximum 22 CEU’s per FL applicator
- 122 total FL CEU’s offered
Previous Aquatic Experience

- Everglades Research
- Biogeochemistry
- STA’s
- WCA’s
Wetland Biogeochemistry
● AI manufactured in UK.
● 62.7% Inert ingredients added at St. Gabe, LA plant.
● 50+ years record of performance!
Benefits of REWARD®

- Contact only
  - No translocation or residual activity in soil
- Rain-fast in 30 Minutes
- Highly water soluble; spreads rapidly through water
- Fast Activity - can be used in moving water
- Short activity life in water = reduced concern for drinking, irrigation, and other water uses
## REWARD® water use restrictions

REWARD® Best Management Practices

• Use when water is clearest, do not use turbid water in spray tank
• Reward migrates to warm water - avoid use when water temperatures are below 50F
  • the warmer the water, the quicker the uptake
• Best product to use when treating around desirable woody species (roots) or in areas where water holding restrictions are a concern
Refuge™ for Lakes and Ponds

- Used to control emergent, floating, and marginal weeds in aquatic or wetland sites
  - Excellent control of overgrown cattails and water lilies

Another true “Surf & Turf” herbicide

*Multi-use*

*Broad-spectrum*

*Both aquatic and terrestrial*

5 lb. AE Potassium salt glyphosate
- 25% more concentrated than other glyphosates
- Fewer containers with the concentrated formula
Thank you!
