Nufarm Aquatic Products

TAHOE® 3A Herbicide

Tahoe® 3A contains triclopyr, the active ingredient used in Garlon® 3A.
Nufarm Aquatic Products

AquaSweep™ – One Product for Many Uses.

AquaSweep™ from Nufarm offers outstanding control of invasive and noxious weeds and brush on roadsides, rights-of-way, ditchbanks, aquatic sites, as well as pastures and along fence rows. The first liquid premix with full terrestrial and aquatic uses, AquaSweep is the perfect base for any selective weed control program interspersed with aquatic and wetland areas.
What the heck is Aquasweep?

• Aquasweep the first combination product fully labeled for Aquatics, R & P, Right of way, turf as well as terrestrial uses.

• An off shoot of Turflon II Amine from Riverdale early 90’s.

• A premier example of what Nufarm does best, combine actives, surfactants and emulsifiers to make better, broader spectrum products.

• Nufarm was the first company to make a hard water formulation 2,4-D, {Weedestroy AM-40.}
Terrestrial Use sites such as:

- Pasture and Rangeland
- Roadsides
- Rights-of-Way
- Non-crop areas
- Fencerows
- Non-irrigation ditchbanks
- Turf, golf & sod farms

Aquatic Use sites such as:

- Ponds/Lakes/Reservoirs
- Marshes/Bayous
- Non-irrigation canals and ditches
- Seasonal irrigation canals and ditches
- Impounded rivers and streams
• **Advantages using Aquasweep.**

• Very versatile label. Can apply from top of a mountain to the bottom of a lake.

• Peace of mind during selective weeding applications that are interspersed with aquatic and wetland areas

• Easy on grasses. Selective mode of action. When controlling Purple Loosestrife, Salt Cedar, Russian Olive etc. grasses re-populate the area vacated by invaders providing competition.

• Great tank mix partner.

• **AS ALWAYS** coverage is important.

• Updating label species.
Salt Cedar
