Gibbons Bio:

Beginning in 2000 Gibbons Organics have provided certified organic produce to Treasure Coast consumers including restaurants, caterers, farmers markets and health food stores. Located in Ft. Pierce on 2 acres, Gibbons Organics is owned by Jim & Brenda Gibbons. After a slow recovery from 2 hurricanes in 2004 Gibbons Organics today rotates over 20 different varieties of vegetables under 1 acre of green houses. Jim and Brenda have recently added bananas, papayas and grapes to their farm with plans of adding peaches and blueberries in the near future. With over 20 years of Organic farming experience I would like to introduce Jim Gibbon’s of Gibbons Organics.
