

SWIM Poster Directory

Poster #

- 15 **Kathleen (Katie) Bardsley** – Simulating Density-Dependent Flows Using the Lattice Boltzmann Method
- 16 **Linzy Brakefield-Goswami** – Physical and Numerical Modeling of Buoyant Groundwater Plumes
- 17 **Mati Caspi** – Brine Formation and Entrapment in the Eastern Mediterranean Coastal Plain Aquifer
- 6 **Eduardo Castro** – The Interplay Between Tidal Fluctuations and Physical Heterogeneity on Seawater Intrusion
- 14 **Nicholas de Sienes** – Submarine Groundwater Discharge at an Open Ocean Marine Beach in California
- 18 **Guoping Ding** – Stochastic Study on Impact of Heterogeneity of Coastal Aquifers on Movement of Transition Zone (TZ) between Freshwater and Saltwater Induced by Pumping
- 11 **Oscar Frausto** – Groundwater Quality Monitoring on Northeast Yucatan Peninsula, Mexico
- 1 **Weixing Guo** – Feasibility Study for Raw Water Supply to a Proposed Reverse Osmosis Plant
- 19 **Juan José Hidalgo González** – The Role of Salt Sources in Density-Dependent Flow
- 8 **Kue-Young Kim** – Dynamic Behaviors of Fresh-Saline Water Interactions in Coastal Zone
- 3 **Arjen Kok** – The Use of Mapping the Salinity Distribution Using Geophysics on the Island of Terschelling for Groundwater Model Calibration
- 2 **Georgios Kopsiaftis** – Numerical Simulation of a Coastal Aquifer in Rhode Island
- Unable to attend **Julia Marangani** – Proposal of a Methodology for the Optimal Design of Monitoring Networks Coastal Aquifers Management
- 12 **Maurizio Polemio** – The Coastal Karstic Aquifer of Vlora (Albania)
- 20 **María Pool** – Vertical Integration for Modelling Seawater Intrusion
- Unable to attend **Surendra Sharma** – Influence of Sea Water Ingress : A Case Study from East Coast Aquifer in India
- 4 **Luigi Tulipano** – Evolution of Seawater Intrusion in Coastal Aquifers of Pontina Plain (Italy)
- 9 **Virginia Walsh** – Tracing Vertical and Horizontal Migration of Injected Fresh Wastewater into a Deep Saline Aquifer using Natural Chemical Tracers
- 5 **Michael Weatherby** – Significant Water Quality Trends Observed in the Lower Hawthorn Aquifer of Southwestern Florida, Occurrences and Solutions
- 10 **Helga Wiederhold** – Airborne Geophysical Investigation of the German North Sea Coastal Area
- 21 **Michael Zygnerski** – Quantifying Effects of Natural and Anthropogenic Stresses on Long-Term Saltwater Intrusion in a Coastal Aquifer
